Mission Statement & Philosophy

A New Song Mobile Entertainment exists to fulfill the following goals:

- 1) **Professionalism** -- As our client, you can expect to be treated in a way that reflects the level of commitment you have to your event. We will be available to answer your questions and give suggestions based on years of experience. We dress in a tuxedo, use the highest quality equipment, and have a huge music library - which is always growing. We are a member in good standing of the American Disc Jockey Association, recommended by many local professionals and carry one million dollars in liability insurance.
- 2) **Preparedness** -- At your event we will arrive with back-up equipment, requested music, an extra tuxedo, and have liability insurance.
- 3) **Communication** -- We will be available to talk with you, whether a client or a prospective client, on weekends, evenings and normal business hours. A few weeks before your event, a planning meeting will be available to you if you should desire one. You will receive our cell phone number prior to your event for those last minute details.
- 4) **Appropriateness** -- Your event is important to you and to us. Therefore, each comment, song, joke, or any other gesture will be in the best of taste. Additionally, no one at any event will be subject to inappropriate comments, suggestions, requests, etc. by anyone associated with A New Song.
- 5) **Personal Service** -- Your event will be uniquely prepared for, and uniquely executed, to meet your needs and wants. This preparation will be complete before your event, but be flexible to meet the dynamic of a live event.
- 6) **Fun!** -- You plan your event to have a good time. We know it and love it! We will do all we can to keep the energy up, and the party going.

If there is anything we can do to make your event what you need it to be, let us know!

We look forward to bringing your event to life!

**A New Song Mobile Entertainment
Quality . . . Because it Matters!**
